Hi Volker.

The fundamental issue is the ODI clearance from China Government to allow FAW to deposit moneys to us. Once we have the money, and particularly deposited in USD, the issue should be minor to transfer to US or Germany as required.

Hi Sadha.

Have you ever considered to funnel the funds to Germany?

I have heard from sources in China that this is easier because it is not affected by the current spat between US and China.

Do you have any forecast when you will have the funds?

Hi Volker,

To be totally honest with you, it is very likely that we will miss the Oct 15 payment. I know this is not what you want to hear but based on how slow things are moving in China at the moment, I want to be totally transparent with you.

Thanks

Hi Volker,

White there has been a lot of work that happened in China, the ODI clearance is still awaited from Chinese Government. I will let you know once the clearance is received and funds start coming through.

With China on vacation this week, I don't expect to hear anything until sometime next week. Appreciate your patience and ongoing support.

[EXTERNAL] Hi Sadha,

It would be very good to get a status and payment plan as requested.

My management is getting quite active right now, not sure how good I can control.

Here is the overview of open invoices.

I also like to understand if someone is slitting on the pipeline so I can react to the specific problem.

<image001.gif>

Past due are now 5,155,155,00 €

Furthermore, I am still waiting on the PO for the Santa Clara & Nanjing EDAG resources. The request is also increasing there. At this time I have not invoiced for Jan and Feb 2019 and I cannot wait much longer to do so.

I think I can invoice against the old payment plan and adjust later when the new one is ready.

Please advise.

Subject: EDAG Payment Status Dear Cosimo and EDAG Team:

There are recent developments around our Byton funding that are looking more promising, as we are ever closer to closing our C-round, plus have some bridge financing and other potential major funding sources that look very promising.

Meanwhile, the patience and support that EDAG continues to give to Byton is GREATLY appreciated. We do not fault EDAG for managing its risk and we intend to work even harder at our partnership when we can get back to normal business.

Our first intent is to completely clear our arrears and restart this program; and there is a good chance that this will be the path shortly. If Byton must continue to conserve cash, but we have enough to follow your prior payment proposal, then we will follow that.

Either way, we will continue to make ourselves available to work through this difficult time so we can meet all of our objectives. I am traveling in Asia for another week, but I will gladly take a call at any time to answer your questions (my mobile number is below).

Hello Tom,

I have just talked to my auditors (Deloitle). We do not need to mention our Bylon risk in our half-year financial statement, if we receive a payment of 35% of all past due. Furthermore, all overdues should be paid until 30th September. That is very important for our Q3 figures 2019. Here is my proposal. Please let me know, if you can realize it.

EDAG Overdue Payment Schedule

Date	Currency		USD
Aug 19th	EUR	7.079.646,01	8.000.000,00
Sept 3rd	EUR	6.000.000,00	6.780.000,00

Holger:

We sincerely appreciate the difficulty of the situation Byton is putting EDAG into. Unfortunately, our new investor situation is still developing and taking longer than expected. I am attaching a revised payment plan which is realistic given our present cash outlook; hopefully conservative given the opportunities we have to close known investment rounds.

I am not sure what accounting conventions you must follow for your reporting, however if Byton can get EDAG the EUR 1.8 million next week according to the attached plan, then perhaps that is enough to show Byton's good faith to pay all past dues so that EDAG does not have to write-off the entire payable.

Please consider this moving forward. Let us know if this is acceptable, or if there is anything else Byton can do to demonstrate its commitment to meeting all of our obligations and continuing our partnership moving forward.

Best regards,

[EXTERNAL] Hello Daniel, hello Tom

thank you for sending me your payment plan. But, your proposal is not satisfactory and acceptable for us. As we mentioned serveral times before, we publish our half-year financials on 28th August 2019. Therefore, we need a strong sign in the form of cash from Byton, no later than 23th August 2019. Otherwise, we will have to communicate our shareholders and analysts. and as a result, any negative information about Byton's financial difficulties will be made public. All this will negatively impact the reputation of EDAG and Byton. Against the background of the Auto Show in Frankfurt, such negative news are not helpful for both companies. We also want to avoid initiating the legal dunning procedure, as we had a trusted relationship between customer and supplier in the past.

I hope you understand our common problem. So please make sure that EDAG receives the full amount by 23th August 2019 at the latest.

I am looking forward to receiving your feedback soon.

10 Q. In what month did Byton begin searching 11:06:24 11 for and collecting relevant documents? 11:06:27 12 A. I recall from November 2019, early 11:06:34 13 November 2019. 11:06:38 14 Q. Can you please describe the steps Byton 11:06:47 15 took to search for documents for production in this 11:06:49 16 matter? 11:06:51 17 A. I was not personally involved in the 11:07:04 18 search at the time, so I wouldn't know specific 11:07:06 19 steps that were taken, but I do know and I have seen 11:07:10 20 e-mail correspondence from that time where a number 11:07:14 21 of documents were collected and provided. 11:07:20 22 MR. SIPPRELLE: Mr. Kameswaran, I think 11:07:27 23 he's asking you it was kind of a broad question 11:07:28	9 cmployce to search for or turn over documents 11:09:45 10 related to this lawsuit that were in their 11:09:48 11 possession? 11:09:50 12 A. I'm not sure I'm understanding the 11:09:58 13 question. Could you please elaborate? 11:09:59 14 Q. Sure. You said you were never asked 11:10:03 15 personally by Byton for documents related to this 11:10:06 16 lawsuit that you possessed, correct? 11:10:09 17 A. Yes. 11:10:15 18 Q. Did Byton ask any individual employee to 11:10:18 19 provide documents that were in their possession 11:10:23 20 related to this lawsuit? 11:10:25 21 A. So as I had mentioned before, the various 11:10:36 22 functions and relevant documents, whichever function 11:10:41 23 it belonged to, were collected. I do not know the 11:10:44

1 MR. SIPPRELLE: All right. 12:03:42	1 databases. In my deposition, I indicated that I 12:18:00
2 THE WITNESS: Okay. 12:03:45	2 believe that Byton no longer had access to these 12:18:04

7 THE VIDEOGRAPHER: On the record. The 12:15:26	7 Q. Why did you think Byton no longer had 12:18:16

9 MR. ESTES: Q. Sir, you understand you're 12:15:32	9 A. Because from a financial point of view, I 12:18:24
10 still under oath? 12:15:33	10 knew that we owed money to those third-party 12:18:26
11 A. Yes, I do. 12:15:34	11 providers. 12:18:30
12 Q. Did you speak with anyone about this 12:15:35	12 Q. And 12:18:32
13 deposition during the break? 12:15:37 14 A. No, I did not. 12:15:40	13 A. And there was and there was protests 12:18:33
	14 from those vendors and threatening of 12:18:36
15 Q. All right. Going back to Exhibit 84, your 12:15:43	15 discontinuation of service. 12:18:42

22 Q. And you said earlier that Byton documents 12:16:02 23 have not been stored on any other third-party 12:16:06	22 sold by some onsellers for one of those companies, 12:19:09 23 so I do not know. 12:19:16

25 A. That's correct. 12:16:14

1 Q. What kinds of documents were stored on the 12:16:17	1 A. Not sure whether it was JAMA themselves or 12:19:29

3 A. Sorry. Could you repeat that? You were 12:16:24	3 Q. Do you know when Byton stopped paying the 12:19:35

	9 Q. And do you know the third-party vendor 12:20:22
	10 that administers the JIRA database? 12:20:24
11 Q. What kind of documents are stored on the 12:16:55 12 JIRA database? 12:16:57	11 A. No, I do not know. 12:20:30 12 Q. Do you recall approximately when Byton 12:20:32
13 A. JIRA is basically a engineering change 12:17:02 14 management system. So all the engineering change 12:17:05	13 stopped paying the third-party vendor who 12:20:33
15 changes that have gone through would go through the 12:17:11	14 administers the JIRA database? 12:20:35 15 A. No, I do not know. 12:20:44

23 Q. The second sentence of paragraph 8 states, 12:17:52	23 Q. Would you estimate that late 2019 or early 12:21:16
24 "I recently gave deposition testimony in this matter 12:17:55	24 2020 is the best approximation of when Byton stopped 12:21:18

1 JIRA database? 12:21:24	1 Q. It is correct that you do not know whether 12:25:09
2 A. That would be a good estimate. 12:21:30	2 Byton searched the Confluence database to collect 12:25:11
3 Q. Paragraph 8 of Exhibit 84 goes on to say 12:21:34	3 relevant documents prior to August 2020? 12:25:14
4 that "Subsequent to my deposition, I learned that 12:21:37	4 A. When you said "prior to August 2020," like 12:25:30
5 Byton's remaining IT employee has access to the JIRA 12:21:40	5 from November 2019, documents have been searched, so 12:25:33

7 correctly? 12:21:45	7 been searched until when we had issues. 12:25:40
8 A. Correct. 12:21:46	8 Q. So Byton searched the Confluence database 12:25:49
9 Q. How did you learn that Byton had access to 12:21:48	9 at some point from November 20 at some point 12:25:51
10 its JIRA and Confluence databases? 12:21:50 11 A. I spoke to the IT person after my 12:21:55	10 between November 2019 until when access was revoked? 12:25:55
	11 A. I would be guessing. 12:26:10 12 Q. So sitting here today, you don't know 12:26:13
•	12 Q. So sitting here today, you don't know 12:26:13 13 whether Byton searched the Confluence database at 12:26:14
13 percent sure when I made the deposition, so I 12:22:02 14 checked with IT person at that time. 12:22:05	14 some point from November 2019 until when access was 12:26:17
15 Q. Did anyone ask you to check with the IT 12:22:10	15 revoked? 12:26:20
16 person? 12:22:12	16 A. I wouldn't know. 12:26:24
17 A. No. After the deposition, I felt that I 12:22:17	17 Q. And then Byton searched the mirrored 12:26:25
18 was not hundred percent sure about that, so I should 12:22:19	18 server in approximately November or December of 12:26:28
19 check it, so I did that on my own. And I reached 12:22:23	19 2020? 12:26:32
20 out to the counsel to change my 12:22:26	20 A. Correct. 12:26:35
21 MR. SIPPRELLE: All right. Hold on, 12:22:30	21 Q. Why didn't Byton search the Confluence 12:26:37
22 Mr don't talk about anything with your attorney. 12:22:31	22 database at some point after this lawsuit was filed 12:26:39
23 Okay? That's privileged. 12:22:35	23 until access was revoked? 12:26:43
24 MR. ESTES: Q. And so then your 12:22:40	24 MR. SIPPRELLE: Well, object; assumes 12:26:46
25 declaration stated that Byton would undertake a 12:22:42	25 facts not in evidence, misstates his testimony. I 12:26:48

2 access to, correct? 12:22:49	2 know if it was or was not. Go ahead, 12:26:55
3 A. Correct. 12:22:51	3 Mr. Kameswaran. 12:27:06
4 Q. Did Byton search the Confluence database 12:22:51	THE WITNESS: No, that's correct. And as 12:27:09
5 to collect relevant documents prior to August 2020? 12:22:53	5 I said before, I wouldn't know what was searched 12:27:10
6 A. Would have done if the database was 12:23:10	6 from November time frame and when exactly we had 12:27:14
7 active. I do not know exactly exactly when 12:23:13	7 issues with access or anything like that. So any 12:27:20
8 accesses were removed or reinstalled, reinstalled. 12:23:21	8 statement I make, I would be guessing. 12:27:23
9 Q. So access to Confluence and JIRA were 12:23:29	9 MR. ESTES: Q. Is there anyone still at 12:27:27
10 removed and then reinstated at some time? 12:23:35	10 Byton who would know whether or not the Confluence 12:27:28
11 A. I do not know the specifics, but the IT 12:23:38	11 and JIRA databases were searched from strike 12:27:31
12 person had access to the backup server. 12:23:40	12 that. 12:27:36
13 Q. So the Confluence and JIRA databases 12:23:46	Does any is there anyone currently at 12:27:37
14 searched by Byton were from the backup server rather 12:23:48	14 Byton who would know whether the Confluence database 12:27:40
15 than in the existing databases themselves? 12:23:51	15 was searched from November 2019 until access was 12:27:42
16 A. The mirrored server, as we call it, which 12:24:01	16 revoked? 12:27:44
17 resides in our network. 12:24:04	17 A. There is there is no one else. 12:27:51
18 Q. And that's what Byton searched, rather 12:24:06	18 Q. Do you know whether or not Byton searched 12:27:57
19 than the Confluence or JIRA database that access had 12:24:13	19 the JIRA database to collect relevant documents from 12:27:58
20 been revoked from? 12:24:18	20 after this lawsuit was filed in the period from 12:28:03
21 A. I do not know the specific search. 12:24:30	21 when after this lawsuit was filed until access was 12:28:06
22 Q. So it is correct that you do not know 12:24:49	22 revoked? 12:28:08
23 whether Byton searched the Confluence database to 12:24:52	23 A. Again, same thing. Wouldn't the 12:28:13
24 collect relevant documents prior to August 2020? 12:24:55	24 sitting here today, I wouldn't know what was 12:28:17
25 A. Could you repeat that, please? 12:25:07 Page 327	25 searched at what time frame, but an additional 12:28:19 Page 329

- 1 M-Byte out into the market?
- 2 A. Yes. As I understood, the program timing at
- 3 that time was to launch the car in the fourth quarter of
- Q. And was there a plan at that time as to where 6 it would be sold first?
- 7 A. Yes. The initial launch was planned to be in
- 8 China. As I said, with the start of production in Q4 of
- 9 2019, with start of sales in China in the first quarter
- 10 of 2020, and then, in the summer of 2020 the vehicle was
- 11 planned to be launched in U.S. and Europe
- 12 simultaneously. So there was a six-month gap between
- 13 the China launch and the subsequent launches in U.S. and
- 14 Europe.
- 15 Q. All right, and when did you join Byton, sir?
- 16 A. In July 2017.
- 7 Q. And would you please tell us about the various
- 18 positions you have held at Byton and your duties and
- 19 responsibilities in each position?
- 20 A. So I -- my current title, which is also the
- 21 title at the time of me joining Byton, I was responsible
- 22 for product control and was hired to be responsible for
- 23 the product control and business operations function. I
- 24 was focused more on the product finance side initially
- 25 when I joined, and then, as there was some people
 - Page 797
- 1 transitioning to other roles within Byton, somewhere
- 2 around -- I can't remember exactly, maybe late
- 3 2017/early 2018, I also took responsibility, full
- 4 responsibility for the North American finance
- 5 operations.
- 6 Q. And currently what are your duties and
- 7 responsibilities at Byton North America?
- 8 A. Currently it's a lot broader than what I signed
- 9 up for, what my title shows, because there's hardly
- 10 anyone left at Byton and I'm managing a lot of things
- 11 from facilities to covering a lot of areas where we do
- 12 not have people.
- 13 Q. And how many employees does Byton North America
- 14 currently have, active employees?
- 15 A. Unfortunately, the current full-time headcount
- 16 is about four, and then we have two people in part-time
- 17 capacity on an as-required basis.
- 18 Q. At its peak of employment, approximately how
- 19 many employees did Byton North America have?
- 20 A. If I recall correctly, at its peak we had
- 21 somewhere around 550 people.
- 22 Q. And now there's you said about four full-time
- 23 employees?
- 24 A. Correct.
- Q. At its peak, of those 550 approximately

- 1 employees, how many were engineers?
- 2 A. I would say 400 to 420 were engineers.
- 3 Q. Why did you join Byton, sir?
- 4 A. So I'm an automotive nut, been in the
- 5 automotive world for a long long time, and the EV
- 6 industry was just picking up in the time I came to the
- 7 U.S. and I looked at this opportunity as an opportunity
- 8 to transition and grow my career in the EV industry.
- 9 And so then I was looking at various companies.
- 10 Byton approached me around that same time and I
- 11 saw the challenge of working in a startup environment,
- 12 the experience I did not have before, as well as being
- 13 part of an EV revolution, along with -- it was changing
- 14 C 7 1 11
- 14 from, I should say, an automotive sector to an auto tech
- 15 sector, if you understand what I mean, so it was getting
- 16 more to the technology side of it rather than just the
- 17 automotive part of it. So I saw that that's a good
- 18 career opportunity.
- 9 Q. You mentioned that Byton had around 550
- 20 employees at its peak level of employment. When was
- 21 that approximately that it reached its peak of
- 22 employment?
- 23 A. I would say May 2019.
- 4 O. And so what happened with the company going
- 25 from 550 employees down to four active employees, what
 - Page 799

- 1 happened?
- A. So in 2018, December, we closed our B-round
- 3 funding, we were getting ready to launch the car in
- 4 2019, so we were accelerating our employment of
- 5 resources and everything to support the launch related
- 6 to final design and development activities. So we got
- 7 to this point in, say, mid-2019 when we got to 550. And
- 8 we were also around the same time planning to close our
- 9 C-round of funding somewhere between April and June time
- 10 frame in 2019. So it was all positive and we were
- 11 working through the various funding rounds and the
- 12 relations at that time to close the C-round by middle of
- 13 2019.
- 14 Unfortunately, there was quite a few issues
- 15 that came up around that time. One was -- I should say,
- 16 it was a perfect storm. One was we were finding it
- 17 difficult to close the funding because of, I should say,
- 18 intercontinental relations between U.S. and China.
- 19 There was a lot of speculation on the China side as to
- 20 what would happen and how the -- and the U.S. government 21 at the time would be with Chinese-owned companies and so
- 22 on. So a lot of the investors were worried about
- 23 putting money and that dragged along a bit.
- 24 And then we had some investor options from
- 25 within China who were interested in putting money, they

- 1 MR. ESTES: Kristin, you can pull that down.
- 2 Q. And you didn't speak to Mr. Tom Wessner to

- 4 A. No.
- 5 Q. You didn't seek to Mr. David Twohig to prepare
- 6 to testify as Byton's most qualified witness; right?
- 7 A. I did read the depositions and declarations,
- 8 but I don't recall talking to him specifically.
- 9 Q. And same with Mr. Shawn Slovesko: You didn't
- 10 speak with him to prepare to testify as Byton's most

- 12 MR. SIPPRELLE: I'm sorry, we lost the sound 13 there.

- 15 Q. You didn't speak with Shawn Slovesko to prepare
- 16 to testify as Byton's most qualified witness; right?
- 17 A. So you are referring to the November
- 18 deposition?
- 19 Q. Correct.
- 20 A. That is correct. Again, I did read his
- 21 deposition and any other details, but not -- did not
- 22 speak with him.
- 23 Q. Dr. Daniel Kirchert is a former Byton CEO?
- 24 A. Correct.
- 25 Q. You didn't speak with Daniel Kirchert to

- 3 A. That is correct.
- 4 Q. Carsten Breitfeld is a former Byton CEO?
- 5 A. Yes
- 6 Q. You didn't speak with Mr. Breitfeld to prepare

1 prepare to testify as Byton's most qualified witness at

- 7 to testify as Byton's most qualified witness; right?
- 8 A. That's correct.
- 9 Q. And in fact, you didn't speak with anyone at
- 10 Byton other than attorneys to prepare for your testimony
- 11 as Byton's most qualified witness; right?
- 12 A. And, yeah, internal, internal Legal Team.
- 13 MR. ESTES: All right, Kristin if we could put
- 14 up Exhibit 151 again, please.
- 15 THE WITNESS: Just to clarify my last answer,
- 16 most of these people that you mentioned were not with
- 17 the company by the time I testified so I did not have
- 18 access to those people except for Ms. Teresa Shi who was
- 19 still with the company at that time.
- 20 MR. ESTES: If we can turn back to the third
- 21 page, Kristin, please.
- 22 Q. Second paragraph of this document states,
- 23 "Byton herewith confirms that these dues are to be paid
- 24 in full as soon as the 'bridging loan' is accomplished
- 25 and the funds have been received by Byton. Byton

- 1 confirms it will fulfill this payment amounting to
- 2 EUR 19,779,825.21 (overdues until August 17th, 2019,
- 3 interests included) before other creditors are paid.
- 4 Byton plans on fulfilling this payment latest August
- 5 18th, 2019."
- 6 Did I read that correctly?
- 7 A. Yes.
- 8 Q. Byton did not fulfill the 19.7 million euro
- 9 payment to EDAG on or before August 18th, 2019; right?
- A. That is correct.
- 1 Q. Byton North America Corporation hasn't paid any
- 12 creditors other than fundamental site operational costs
- 13 and payroll costs since signing the July 28, 2019 Letter
- 14 of Confirmation?
- 15 A. That's correct.
- 16 Q. Byton says nothing about EDAG engineering
- 17 errors in this July 28, 2019 Letter of Confirmation,
- 18 right?
- 19 MR. SIPPRELLE: Object; argumentative, document
- 20 speaks for itself.
- 21 THE ARBITRATOR: No, go ahead and answer that,
- 22 yeah.
- 23 THE WITNESS: Could you slow down, please?
- 24 You're going too fast there.
- 25 Q. BY MR. ESTES: Byton says nothing about EDAG

Page 85

- 1 engineering errors in this July 28, 2019 Letter of
- 2 Confirmation; correct?
- 3 A. Correct.
- 4 Q. Byton never asked EDAG to discount the amount
- 5 it was owed because of engineering errors or otherwise?
- 6 A. That is correct.
- 7 MR. ESTES: Kristin, can we pull up Exhibit
- 8 156, please.
- 9 Q. Sir, are you familiar with this document?
- 10 A. Can you make it a little bit bigger, please, so
- 11 that I can read it?
- 12 Yes, I am.
- 13 Q. This is an August 16, 2019 e-mail from Tom
- 14 Wessner to Holger Merz, and he says he's attaching a
- 15 revised payment plan.
- 16 A. Okay.
- 17 Q. And if we go to the last page, page 5, that's
- 18 Mr. Wessner's payment plan; correct?
- 19 A. Yes, as I recall, yes.
- 20 Q. It's entitled "EDAG Overdue Payment Schedule";
- 21 right?
- 22 A. Yes.
- Q. Byton never paid EDAG 1.7 million euro on
- 24 August 19th; right?
- 25 A. No.

- THE ARBITRATOR: Thanks for asking me. You
- 2 want the contract price plus interest. Is there an
- 3 attorneys' fees clause in this?
- MS. BURBIDGE: There is not an attorneys' fees
- 5 clause. We are seeking the statutory interest as well, 6 your Honor.
- THE ARBITRATOR: Okay. All right. All right.
- 8 I've got it. So, thank you.
- Mr. Sipprelle, are you going to be next?
- MR. SIPPRELLE: I will be next, your Honor.
- 11 Could we take a five-minute break? I just need to run 12 to the restroom.
- 13 THE ARBITRATOR: If you run it's okay.
- 14 MR. SIPPRELLE: I'm going to run, yes.
- 15 THE ARBITRATOR: 9:30 we'll be back.
- MR. SIPPRELLE: 9:30? 16
- 17 THE ARBITRATOR: 9:30. Fifteen minutes.
- 18 (A recess was taken.)
- 19 MR. SIPPRELLE: Good morning, your Honor. My
- 20 name is Keith Sipprelle and I will be trying this case
- 21 along with my co-counsel and partner David Van Etten.
- 22 We represent Byton North America Corporation, and I'll
- 23 refer to Byton North America during the hearing as Byton
- 24 just to keep things a little simpler. One of Byton's
- 25 senior employees, Mr. Sadha Kameswaran, is attending

CONFIDENTIAL

- 1 today along with Evelyn Shimazaki, one of the in-house 2 attorneys.
- Let me start by talking a little about the
- 4 parties. And I don't want to repeat things that
- 5 Ms. Burbidge said, but I'll fill in a few gaps. So
- 6 let's talk about Byton first of all. Byton is an
- 7 electric car startup company. It's located in Santa
- 8 Clara, California, and it was created in 2016 for the
- 9 purpose of designing, developing, manufacturing and
- 10 delivering electric automobiles for the consumer market.
- 11 It was originally known by another name, "Future
- 12 Mobility," but the name was changed to "Byton" in around
- 13 2017.
- 14 So Byton's initial electric vehicle was called
- 15 the "M-Byte." It was an all-electric, battery-powered
- 16 sport utility vehicle, and Byton's plan was to launch
- 17 the M-Byte in China initially by 2021, this year, and
- 18 subsequently to sell the M-Byte in the United States and
- 19 Europe. As Ms. Burbidge indicated, Byton was a startup 20 company. It had no product, no sales revenue, and was
- 21 dependent upon outside funding to get the M-Byte built
- 22 and into the consumer market.
- 23 Ms. Burbidge talked about EDAG, her client, and
- 24 EDAG, as Ms. Burbidge indicated, is an engineering
- 25 company, large public company, based in Germany. The Page 27

CONFIDENTIAL

- 1 EDAG entity involved in this case is part of the EDAG
- 2 Group which is one of the world's largest independent
- 3 development partners for the automotive industry.
- I want to spend a little time talking about who
- 5 I believe is going to be one of the key witnesses,
- 6 perhaps the key witness in this case, and that's
- 7 Mr. David Twohig.

12

- THE ARBITRATOR: David what?
- MR. SIPPRELLE: David Twohig. And let me spell
- 10 the name for you. It's spelled a little bit different
- 11 than it sounds. T-w-o-h-i-g, pronounced "Twohig."
 - THE ARBITRATOR: Okav.
- 13 MR. SIPPRELLE: So, Mr. Twohig is an electrical
- 14 engineer with extensive experience in the automotive
- 15 industry. Mr. Twohig joined Byton in March of 2018 as
- 16 the company's Chief Vehicle Engineer and he was later
- 17 promoted to Chief Technical Officer. But he left Byton
- 18 in February of 2020, approximately a year ago. He's now
- 19 working at another company.
- 20 During his tenure at Byton Mr. Twohig was
- 21 essentially in charge of Byton's engineering effort with
- 22 respect to the development of the M-Byte. Mr. Twohig
- 23 has a long history in the automotive industry. Prior to
- 24 joining Byton he was employed at a number of large
- 25 automotive companies including Nissan and Renault. His

Page 28

CONFIDENTIAL

- 1 experience at Renault is particularly germain to this
- 2 proceeding.
- At Renault Mr. Twohig was responsible for 4 engineering the development of Renault's Zoe, pronounced
- 5 "Zoe" but spelled Z-o-e, Zoe, battery electric vehicle
- 6 which was one of the world's first true and usable and
- 7 affordable electric vehicles. It was launched in 2012
- 8 in France and then in 2013 in much of the rest of
- 9 Europe.
- 10 And if we could pull up trial Exhibit 212,
- 11 David, just to show this. This is Mr. Twohig's LinkedIn
- 12 profile. It's Trial Exhibit 212 so it may take a moment
- 13 for that to come up.
- 14 So we can see here, if you can scroll down,
- 15 David, just to the portion that I've highlighted, which
- 16 is Mr. Twohig's, I believe it's on the second page,
- 17 Mr. Twohig's work at Renault on the Zoe electric
- 18 vehicle. Dave, can you scroll that down.
- 19 MR. VAN ETTEN: It is scrolled on my screen.
- 20 MR. SIPPRELLE: We're not seeing it. We're
- 21 seeing it off to the right but we don't see the --
- 22 THE ARBITRATOR: We'll all get better at this.
- 23 MR. SIPPRELLE: Here we go. So that's a little
- 24 small, I don't know if you can expand the view a little 25 bit.

Plaintiffs Hanon Systems, Hanon Systems USA, LLC ("Hanon USA"), Hanon Systems Deutschland GmbH ("Hanon Germany"), Hanon Systems (Dalian) Co., Ltd. ("Hanon Dalian"), and Hanon Jie Xi Si Systems (Nanjing) Co., Ltd. ("Hanon Nanjing"), for their complaint against Defendant Byton North America Corporation ("Byton"), allege as follows:

NATURE OF THE ACTION

This is an action for damages caused by Defendant's breaches of automotive supply contracts between Plaintiffs and Defendant, including recovery of all amounts owed for goods and services ordered by and received by Defendant, and for which Defendant has failed to pay. Plaintiffs also seeks to recover interest, attorney fees and costs.

PARTIES

- 1. Plaintiff Hanon Systems is a South Korean corporation whose principal place of business is in South Korea.
- 2. Plaintiff Hanon USA is a Delaware limited liability company. Hanon USA's sole member is Hanon Systems. Hanon USA is therefore a citizen of South Korea for purposes of diversity jurisdiction.
- 3. Plaintiff Hanon Germany is a German corporation whose principal place of business is located in Germany.
- 4. Plaintiff Hanon Dalian is a Chinese corporation whose principal place of business is located in China.
- 5. Plaintiff Hanon Nanjing is a Chinese corporation whose principal place of business is located in China.
- 6. Defendant Byton is a Delaware corporation whose principal place of business is located in Santa Clara, California. Byton is therefore a citizen of Delaware and California for purposes of diversity jurisdiction.
- 7. The Court has diversity jurisdiction over this action under 28 U.S.C. § 1332(a)(2) because Plaintiffs are all citizens of foreign states and Defendant is a citizen of a state, and the amount in controversy exceeds \$75,000.00, exclusive of interest and costs.

- 8. This Court is the appropriate venue for this action under 28 U.S.C. § 1391(b)(1) because Byton resides in this judicial district.
- 9. This Court is also the appropriate venue for this action based on the venue provisions of three different contract awards issued by Byton to Hanon Systems (as further detailed below).
 - 10. Byton is subject to personal jurisdiction in this Court.

INTRADISTRICT ASSIGNMENT

11. Pursuant to Civil L.R. 3-2(c), this action should be assigned to the San Jose Division because Byton's principal place of business is located in Santa Clara County and a substantial part of the events or omissions giving rise to the claims occurred within Santa Clara County.

GENERAL BACKGROUND

- 12. Hanon Systems and its subsidiaries and affiliates operate as leading global supplier of automotive thermal and energy management solutions.
 - 13. Byton holds itself out as "a manufacturer of intelligent electric cars."
- 14. On July 1, 2018, Byton issued a contract award to Hanon Systems to design, develop, manufacture and supply 100% of Byton's requirements for certain automotive parts over a seven year period, with production expected to begin in October of 2019 ("Contract Award #1").
- 15. On July 1, 2018, Byton also issued a second contract award to Hanon Systems to design, develop, manufacture and supply 100% of Byton's requirements for certain other automotive parts over a seven year period, with production expected to begin in October of 2019 ("Contract Award #2").
- 16. On September 24, 2018, Byton issued a third contract award to Hanon Systems to design, develop, manufacture and supply 100% of Byton's requirements for certain other automotive parts over a seven year period, with production expected to begin in October of 2019 ("Contract Award #3").

- 17. Contract Award #1, Contract Award #2, and Contract Award #3 are hereinafter collectively referred to as the "Contract Awards". 1
- 18. In reliance on the Contract Awards (and subsequent purchase orders detailed below), and in order to be able to timely meet its obligations to Byton, Hanon Systems and its subsidiaries, including Hanon USA, Hanon Germany, and Hanon Dalian, made substantial capital and other investments.
- 19. Byton knew, or should have reasonably expected, that Plaintiffs would be induced and required to make such investments in order to timely perform their obligations.
- 20. Byton issued a series of purchase orders to Hanon USA and Hanon Germany pursuant to the Contract Awards, requesting that Hanon Systems and its subsidiaries and affiliates provide certain engineering, design and development services, and prototype parts, to Byton that would assist Byton in the development of its vehicles (collectively, the "Part Purchase Orders").
- 21. Byton also issued a series of purchase orders to Hanon USA, Hanon Germany, Hanon Dalian, and Hanon Nanjing pursuant to the Contract Awards to develop and manufacture certain tooling needed to supply the parts to Byton under the Contract Awards and which was intended to be owned by Byton once manufactured (collectively, the "Tooling Purchase Orders").
- 22. The Part Purchase Orders and Tooling Purchase Orders are hereinafter referred to collectively as the "Purchase Orders".
- 23. Plaintiffs performed their obligations under the Contract Awards and Purchase Orders and otherwise met all conditions precedent, if any, to payment and performance of Byton's reciprocal obligations.
 - 24. Plaintiffs submitted invoices to Byton.
 - 25. For a time, Byton paid Plaintiffs' invoices.
- 26. However, starting around April of 2019, Byton began to become severely delinquent in payments to Plaintiffs.

¹ All of the documents referenced in this Complaint are in the possession of Byton and are, or may be, subject to an existing non-disclosure agreement between the parties. Plaintiffs will seek to file them under seal following entry of an appropriate protective order by the Court.

COMPLAINT FOR DAMAGES

4

- 27. On June 11, 2019, Plaintiffs formally notified Byton that if Byton did not bring its account current by June 18, 2019 or provide other adequate assurance of performance, Plaintiffs would be required to suspend further performance under the Contract Awards and Purchase Orders, which could impact the expected start of production.
- 28. Byton did not dispute the invoices but claimed financial inability to perform its own payment and performance obligations under the Contract Awards and Purchase Orders.
 - 29. Accordingly, Plaintiffs suspended further performance.
- 30. On August 9, 2019, Byton advised Plaintiffs that Byton was expecting to receive funding imminently that would allow Byton to bring its account current so that Plaintiffs could resume performance. However, thereafter Byton failed to make any payments to bring its account current.
- 31. Due to its own financial difficulties and/or operational difficulties, Byton delayed the expected start of production of its vehicles in October of 2019, and to this day Byton has still not started production of the vehicles for which the Contract Awards and Purchase Orders were issued to Plaintiffs.
- 32. On January 5, 2020, Byton publicly announced that its "Series C financing" was entering its "final stage", and Byton again advised Plaintiffs that Byton would soon be in a financial position to bring its account with Plaintiffs current and to start production. However, again Byton failed to make any payments whatsoever.
- 33. On March 4, 2020, Plaintiffs' counsel issued Byton a letter demanding payment of the past due invoices issued against the Part Purchase Orders in full by no later than March 19, 2020, and Plaintiff's counsel further advised Byton that failure to comply would result in legal action to recover all damages caused by Byton's breaches of contract.
 - 34. Byton did not comply with Plaintiffs' demand, thereby necessitating this lawsuit.

COUNT I – BREACH OF CONTRACT

35. Plaintiffs incorporate by reference the allegations set forth in paragraphs 1 through 33 above as though fully set forth herein.

- 36. The Contract Awards and Purchase Orders constitute binding contracts between Plaintiffs and Byton.
- 37. Byton's actions above constitute a total breach of the Contract Awards and Purchase Orders, which have caused Plaintiffs millions of dollars in damages.
- 38. More specifically, Byton's breaches of contract have caused Plaintiffs the following damages in the total amount of at least \$2,018,937² (exclusive of lost future profits):
 - a. \$718,840 = amount due and owing to Plaintiffs under the Part Purchase Orders for goods and services delivered;
 - b. \$27,111 = amount due and owing to Plaintiffs under the Part Purchase Orders for goods assembled but not yet delivered pending adequate assurance of payment (which Plaintiffs have not received);
 - c. \$398,572 = balance remaining under Tooling Purchase Orders; and
 - d. \$874,414 = Plaintiffs' unrecovered capital and other investments incurred in reliance on, and in order to perform, the Contract Awards and Purchase Orders.
- 39. Accordingly, Plaintiffs are entitled to recover from Byton all damages caused by Byton's breaches of contract, in an amount not less than \$2,018,937, plus interest, attorney fees and costs as provided by law.

COUNT II – PROMISSORY ESTOPPEL

- 40. Plaintiffs incorporate by reference the allegations set forth in paragraphs 1 through 39 above as though fully set forth herein.
- 41. In the alternative, the Contract Awards and Purchase Orders constitute promises by Byton to Plaintiffs which Byton should have reasonably expected to induce action on the part of Plaintiffs.
- 42. In reasonable reliance on the Contract Awards and Purchase Orders, Plaintiffs were induced to take the actions set forth in paragraphs 18 through 23 above.
- 43. The circumstances are such that injustice can be avoided only by enforcement of Byton's promises.

² Some of Plaintiffs' invoices and investments were in currencies other than U.S. dollars. For purposes of this Complaint, damages have been estimated in equivalent U.S. dollars based on recent conversion rates. COMPLAINT FOR DAMAGES

4	<u>COUNT III – UNJUST ENRICHMENT</u>								
5	45.	Plaintiffs incorporate by reference the allegations set forth in paragraphs 1 through							
6	44 above as t	hough fully set forth herein.							
7	46.	In the alternative, Byton has been unjustly enriched at the expense of Plaintiffs							
8	because Plair	ntiffs provided engineering, design and development services, and provided prototype							
9	parts and ma	nufactured tooling for Byton, for which Plaintiffs have not been fully compensated.							
10	47.	The circumstances are such that it would be inequitable for Byton to retain the

A. Defendant Received the Products and Services Provided by Plaintiff from Late 2018 to October 2019

- 8. Defendant is an electric car startup. It designs and manufactures electric cars with advanced technologies.
- 9. On December 13, 2018, Defendant issued a purpose order (#13841) to Plaintiff relating to products and services described as "11kw OBC Development" for the amount of \$519,340 ("PO 13841"). A true and correct copy of the purchase order # 13841 is attached hereto as **Exhibit 1**.
- 10. On February 8, 2019, Defendant issued a purpose order (#14270) to Plaintiff, relating to products and services described as "DCDC ED&T" for the amount of \$800,300. A true and correct copy of the purchase order # 14270 is attached hereto as **Exhibit 2**.
- 11. In April 2019, Defendant requested that Plaintiff made modifications relating to the ED&T project. On April 23, 2019, Plaintiff replied that the estimated cost of the modifications as requested by Plaintiff would be \$160,000.00. On the same date, Thomas Riedell, an engineer of Defendant, replied to Plaintiff via an email, confirming the cost estimate and demanding Plaintiff to work on the modifications as soon as possible. A true and correct copy of the relevant emails are attached hereto as **Exhibit 3**.
- 12. Plaintiff worked on the modifications of the ED&T project and incurred \$160,000 under the instruction of Defendant.

B. Defendant Failed to Make a Payment for the Amount of \$616,412.00 Upon Repeated **Demands from Plaintiff**

13. By December 2019, Defendant still owed Plaintiff \$616,412.00 for the products and services already provided by Plaintiff.

- 14. Plaintiff made numerous requests for the payment of \$616,412.00 from December 2019 to June 2020. Although Defendant admitted that it received the relevant products and services, it refused to make any payment.
- 15. On July 16, 2020, Plaintiff sent a demand letter to Defendant, again requesting for an immediate payment of \$616,412.00. A true and correct copy of the demand letter is attached hereto as **Exhibit 4**. In the demand letter, Plaintiff informed Defendant that if Defendant failed to make the payment by July 23, 2020, Plaintiff would file a civil lawsuit in an appropriate venue against Defendant.
- 16. As of the date of this filing, Defendant has not replied to Plaintiff's July 16, 2020 demand letter and has not made any payment to Plaintiff.

V. FIRST CLAIM FOR RELIEF

Breach of Contract

- 17. Plaintiff repeats all previous allegations as if set forth in full herein.
- 18. The parties entered into valid contracts (*i.e.* purchase order # 13841 and purchase order # 14279) concerning the products and services ordered by Defendant. Plaintiff delivered the products and services pursuant to the purchase orders. Defendant does not dispute the amount owed to Plaintiff or whether it has received the products and services from Plaintiff.
- 19. Defendant materially breached the contract by failing to make the payment of \$616,412.00 regarding the products and services provided by Plaintiff.
 - 20. Defendant's breach caused a loss to Plaintiff.

VI. SECOND CLAIM FOR RELIEF

Breach of the Implied Covenant of Good Faith and Fair Dealing

- 21. Plaintiff repeats all previous allegations as if set forth in full herein.
- 22. It is implied in every contract that the parties to a contract will deal with each other honestly, fairly, and in good faith, so as not to destroy the right of the other party to receive the benefits of the contract and to reinforce the express covenants or promises of the contract. Good faith means honesty in fact and the observance of reasonable commercial standards of fair dealing in the trade.

1	23. By entering into the two contracts with Plaintiff, Defendant is subject to the
2	implied covenant of good faith and fair dealing. Thus, in carrying out its obligations under the
3	contract with Plaintiff, Defendant must act in good faith and deal fairly with Plaintiff.
4	24. Defendant breached its obligations to Plaintiff under the contracts by failing to
5	make any payment upon numerous requests by Plaintiff.
6	25. Defendant has refused to pay for the products and services without reasonable
7	justification. As a result of Defendant's breach, Plaintiff has suffered damages.
8	VII. THIRD CLAIM FOR RELIEF
9	Unjust Enrichment
10	(Against All Defendants)
11	26. Plaintiff repeats all previous allegations as if set forth in full herein.
12	27. Defendant has received a benefit of the products and services provided by
13	Plaintiff. Defendants' retention of the products and services without payment would be unjust to
14	Plaintiff.
15	28. Plaintiff expected remuneration from Defendant at the time Plaintiff delivered the
16	products and services to Defendant.
17	29. However, Defendant has refused to pay for the products and services without
18	reasonable justification. As a result of Defendant's breach, Plaintiff has suffered damages.
19	VIII. PRAYER FOR RELIEF
20	WHEREFORE, Plaintiff prays for judgment as follows:
21	A. Directing Defendant to pay Plaintiff for the amount of \$616,412.00 for the
22	products and services provided by Plaintiff, plus any interest as accrued;
23	B. Awarding Plaintiff the costs of this action, including a reasonable allowance fo
24	the fees and expenses of Plaintiff's attorneys and experts; and
25	C. Granting such other or further relief as the Court may deem just and proper.

The agreement was documented in a series of purchase orders issued by Byton to AIUS and by invoices issued by AIUS to Byton, as well as other communications between the parties. NOTICE OF EX PARTE FOR SHORTENING TIME FOR HEARING ON MOTION FOR Subject:

APPOINTEMENT OF RECEIVER, AND ISSUANCE OF INJUNCTION PURSUANT TO CIVIL

CODE SECTION 3439.07(a)(3)(A)

Mr. Sipprelle:

Please take notice as follows:

- Ex parte motion to set a hearing on motion for appointment of a receiver to take possession and sale of the 20 Patents ("BNA Patents #1") that were transferred by Byton North America ("BNA") to BYTON Limited ("BY LTD"), and vacate, extinguish and set aside the conveyance to BY LTD under Civil Code Section 3439.07(c), 3439.07(a)(3)(B), FRCP 66, C.C.P. Section 708.620, C.C.P. Section 564 etc., and related basis thereof, and the other 3 patents (BNA Patents #2)
- Ex parte motion to issue an injunction from the sale, assignment, transfer, encumbrance, lien, change of name or title, or disposition pursuant to Civil Code Section 3439.07(a)(A) of BNA Patents #1 and BNA Patents #2.
- Ex parte motion to compel BNA and its officer, directors, shareholders and agent to turn over all financial records including all banking records, the records for the use and disposition of the \$10,000,000 PPP loan, all records that document the transfer of the BNA Patents #1, all payroll records for all employees of BNA, such as, and including the 550 employee, of which approximately 400 engineers discussed in the Deposition(s), or the arbitration transcript, all PG&E, water, trash, and cable records and bills for 4201 Burton Drive, Santa Clara, CA 95054, and all records for proof of payment of lease payment due to the landlord for the premises.

As of this moment, the court has not handed down the judgment which is subject to immediate enforcement. We are presuming that the BNA is NOT going to post a bond. Please advise to the contrary.

We anticipate the filing of our moving papers on Monday, December 13, 2021.

We request that you provide us with the current address, telephone number and email for Mr. Gong L. Chen, Esq. who executed the 20 assignments for the transfers of the BNA Patents #1.

We are aware of the \$10,000,000 from the PPP loan through the SBA/HSBC and that the BNA received a forgiveness on the PPP Loan. Are you going to advise BNA to turn over the \$10,000,000 to EDAG? Are you going to identify the person or entity who has possession of the \$10,000,000?

Please inform us upon receipt of this email. If we do not hear from you upon receipt of this email and turn over the \$10,000,000, we likewise will seek the issuance of a turnover order pursuant to C.C.P. Section 699.040(a)&(b).

If the \$10,000,000 has been sent offshore to Byton Limited or related entities, or any officer, director, shareholder or third party, we will seek relief under Civil Code Section 3439.04(a), Section 3439.05, and California common law as part of the pending relief. The fact of the offshore transfer of the \$10,000,000 is very strong evidence of a going pattern of fraudulent conduct for the purpose defrauding EDAG. I remind you the fraudulent conveyance is a common law fraud.

David J. Cook, Esq. Cook Collection Attorneys PLC., 165 Fell Street, San Francisco, CA 94102 (415) 989 4730

- I, Michael Berg, hereby declare and state as follows:
- I am a California licensed certified public accountant since 1982 and a member of
 the American Institute of Certified Public Accountants (AICPA). I am Certified in
 Financial Forensics (CFF) by the AICPA and am an advisor and consultant to clients,
 attorneys and third parties in the area of financial, tax and estate planning, and business
 litigation.
- 2. I was a manager in the audit practice of PWC (formerly Coopers and Lybrand), co-founder and owner of PMB Helin Donovan, a medium sized CPA firm with offices in California and Texas where I was Partner in Charge of the firm's audit practice. I sold my interest in the firm and retired from public accounting. I served as the Chair of the Audit Committee for Marathon Digital Holdings, a NASDAQ traded financial services firm, during 2021 and continue to consult with small public companies. My resume is attached hereto, marked "Exhibit A" and incorporated by reference.
 - 3. I have been deposed on multiple occasions as an expert witness in Bankruptcy
 Court and in State Court. Particularly, I have been determined by courts as an expert in the
 business issues related to fraud. A list of litigation matters to which I have attended is
 attached hereto, marked "Exhibit B" and incorporated by reference.
 - 4. I have been engaged by Mr. David Cook, Esq. in the Matter of EDAG

 Engineering GMBH vs. Byton North America, a Delaware Corp. to review the transfer of
 certain patents between Byton North America and Byton Limited (the Hong Kong parent
 company of Byton North America) and to determine if such transfers were made for a
 legitimate business purpose.
 - 5. As part of my review I have been provided the following documents by Mr.

Cook's office:

- A. Petitioners EDAG's Notice of Entry of Judgment by Arbitrator, Jun 23, 2021 and the Final Arbitration Award confirming the \$29,972,239 owed to EDAG.
- B. Order granting Claimant EDAG's Motion for Preliminary Injunction, November 8, 2021.
- C. Declaration of Volker Amelung regarding Patent Valuation, December 9, 2021
- D. Complaint filed in "BYTON NA and BYTON LIMITED v. ICONIQ MOTORS NORTH AMERICA, INC.", December 13, 2019.
- E. Declaration of Matt Barter of behalf of BYTON NA and BYTON LIMITED,September 18, 2020.
- F. Declaration of Gong Lin Chen, December 9, 2021.
- G. BytonPatent Assignment Sheet, provided by Cook.
- H. Byton PPP Government Loan datasheet obtained from the SBA, provided by Cook.
- I. Byton Activity Timeline, provided by Cook.
- J. Deposition of Sadha Kamesran, November 17, 2020
- 6. After a review of these documents, I can only conclude that the transfers of the patents from Byton NA to Byton Limited, which occurred between May 16, 2019 and August 11, 2021, had no business purpose other than to shield these assets from the creditors of Byton NA and the United States Government. The patent assignments were a series of fraudulent transfers intended to delay and defraud the Company's creditors. I reach this conclusion after noting the following facts and evident badges of fraudulent transfer:
 - a. The patents were very valuable and in fact may have been one of few

assetsremaining on the books of Byton NA. The declaration of Volker Amelung suggests that the patents had a value of almost \$84 million dollars and the Arbitrator's Final Award to EDAG was \$29,972,239, for unpaid services. The Arbitrator Hon. William Cahill cites evidence that Byton Limited continued to pursue the intellectual property created by EDAG throughJAMA, a cloud based provider, and had sufficient money to regain access to the patent database (\$500,000 is estimated as owed to all cloud based providers used by Byton NA). Judge Cahill notes that the payments were made to JAMA even though Byton did not have the money to pay EDAG, the vendor that helped develop the intellectual property.

- b. Byton NA was insolvent at the time of the transfers. Byton NAhas judgments outstanding by vendors and employees. Byton NA stopped paying vendors and suppliers by middle of 2019; failed to pay their law firm sometime in 2020, stopped paying another vendor specifically in March 2020. During the same period Byton NAapparently fled California and the Company President Daniel I Kirchertwas located in Hong Kong. CT Corporation resigned as the agent for service of process, presumably for lack of payment. Byton also let go of all California based employees before or during the transfer of Patents from May, 2019 to August, 2021.
- c. Byton Limited, a separate corporation, is the corporate parent for Byton NA.
 As noted by Byton NA and Byton Limitedin its complaint against ICONIQ
 Motors: Byton Limited is a Hong Kong company that develops electric vehicles
 and Byton NA, Byton Limited's wholly owned subsidiarity, provides research and

- development and software design services. The use of separate wholly owned corporations to hide nefarious activities is a common badge of fraud.
- d. The patent transfers were made without consideration. Gong Lin Chen, the Director of IP for Byton group of companies alleges that the transfers were made by a "long standing inter-company agreement" between Byton NA and Byton LIMITED and that Byton LIMITED would be the ultimate owner of these patents. Such an agreement is in violation of generally accepted accounting rules that require that any transfer between separate corporations be supported by the concurrent payment of fair market value.
- e. There is no legitimate business purpose for the patent transfers. The Byton companies have not provided any related financial information, valuations, corporate minutes, or board resolutions that would be a necessary part of any normal corporate asset transfer. There are no compelling busines strategies, tax planning opportunities, or other reasons for the patent transfer. The timing of the transfers coincide with the financial collapse of Byton NA.
- 7. The patent transfers suggest tax evasion and fraud perpetuated against the United States Government. ProPublica documents reveal that Byton NA received debt forgiveness in the amount of \$10,113,056 for a loan received under the PPP program designed to help businesses during the COVID epidemic. This loan was received at the same time that Byton NA was transferring over \$80 million in assets to China, effectively making its US subsidiary insolvent, suggesting that the debt forgiveness was fraudulently obtained. Also, a transfer of assets can result in US based income to the recipient when equivalent consideration is not paid. Byton Group may owe millions in unpaid taxes to the

US government.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct. Executed this 14th day of December, 2021 at Napa, California.
